Kicks and Scribs From Rounder

OUR northern friends-more of OUR northern friends—more of whom are in Florida today than at any other one time in the history of the state—are having a great time basking in the Florida sun, bathing in its limpid waters, and driving in shirt-sleeves through its romantic hammocks. What a bonanza it must seem to them to get away from the coal fires and enjoy our genial climate! And then think of the thousands and millions who are forced by circumstances to remain in the frozen North and append all they make in extention. and spend all they make in extortionite coal bills!

Why do our Sunday newspapers ake up so much space telling about foreign Nobility? What do we simple Americans care about Nobility? Do he American people read these artiles? Do they like them so well that he newspapers find it profitable to publish them? Rounder fears that we are growing from a hero-worshiping o a snob-worshiping people.

And now the "hero" Hobson-he of Merimack fame—is again trying to be retired, claiming that one eye is a Putnam little off. Two naval examining boards have given Hobson a critical physical examination and pronounced him in good physical condition-still he insists on being retired and drawing a pension ever after. Bills have been introduced in congress to retire him, but have not been acted on so active duty or resign (without the resented. pension). Rounder fears that this pension business-while being a good elected as follows: thing and just-is being worked entirely too much. In the old days D. D. when Rounder was a boy it was considered a fine thing-a great honorto occupy a position in the army or navy. But times have changed. All our young men want now, after the Miss M. Dickinson entertained the The sawmill and box factory of smoke of battle has cleared away, is urer, Rev. L. D. Geiger, D. D. pelled to resume his duties or give up all claim for a pension. His little he did well-the best he could under the circumstances-but that is no reason why his country should keep him in idleness all the rest of his life.

ROUNDER

FLORIDA BOY'S INVENTION. Joseph H. Smith, a Jacksonville boy to Jacksonville. The outfit is said to who has a turn for mechanics, and has studied to some purpose about eleccricity and the various ways in which the mysterious fluid can be made useful to man, has just received word of the securing of a patent upon his autoelectric alarm lock. The invention consists largely of applying contact points, which meet the proper wires, in door locks. Either mortise or rim locks can be used, and by a simple arrangement of wires and plates the lock is made self protecting. A twist of the knob sets a bell in the house to ringing merrily, and the same effect follows any attempt to open the door smartalec, its richest man, some pret-ty girls, a weather prophet, a neigh-or not. The lock is recognized by all borhood feud, half dozen lunatics, a who have seen it as an excellent thing, and it will indeed be a terror to burgpeace, a man who knows it all, a Jack- lars. The plan for adjustment is such sonian Democrat, more loafers than as to leave no trace of the hidden it needs, men who see every dog fight. power in sight. The young man has Mr. and Mrs. E. C. A FAMILY SYNDICATE.

Chicago Man's Novel Idea to Keep His Sons in Basiness.

After a residence in Chicago of sixteen years Frank H. Cooper announces that he is to move to New York. Since he retired from Siegel, Cooper & Co. Mr. Cooper has been interested in a medical concern. He also has large interests in the Siegel-Cooper company of New York. "It is my purpose," said he to a rep-

resentative of the New York World. "to form what might be termed a fainily syndicate to handle all the business in which I and my sons may be engaged. I think that is a new idea--a syndicate in one family. I expect to soon begin the manufacture of a typewriter and of an adding machine.

"I always have thought that it was unfortunate that one son in a family should grow to be a rich man, while another might be unsuccessful. I now recall the case of a man in this city (Chicago) who is working for \$10 a week, while his brother is worth millions. I do not think that is right, and I do not want anything like that among my boys."

Deafness Cannot be Cured

Miss Carrie Pye spent a few days by local applications as they cannot visiting Miss Mary Harper of West reach the diseased portion of the ear. There is only one way to cure deaf-ness, and that is by constitutional remedies. Deafness is caused by an doing remarkably well-some bring inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when result, and unless the inflammation can be taken out and this tube restored to its nornal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give one hundred dollars

for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circu-
